AI for Non-Profit Nursing Leaders: Lead the Way with Transformative Tools and Strategies
Speaker: Kevin Lyons
Sunday, August 25, 2024 | 10:45am – 12pm

Session Description
In this engaging and interactive session, attendees will be guided through the transformative potential of artificial intelligence (AI) tailored for non-profit nursing leaders. This session is designed to equip leaders with practical tools and strategies to enhance personal productivity and organizational effectiveness. Key topics will include generative AI, essential AI tools, custom GPTs, chatbots, and the ethical considerations of AI implementation.

Key Takeaways

• Understanding generative AI and its applications in non-profit organizations.

• Insights into essential AI tools and how to integrate them into daily workflows.

• Strategies for building custom GPTs and using AI to enhance member engagement.

• Ethical considerations and best practices for implementing AI.

Interactive Elements

• Live AI demonstrations, including custom GPT creation.

• Q&A session tailored to attendee needs and challenges.

• Real-world case studies and actionable insights.

Meet the Presenter

Kevin D. Lyons is the seasoned Executive Director of the Rheumatology Nurses Society (RNS) and CEO of Lyons Den Solutions. With over 30 years in leadership, Kevin has expertly guided RNS through significant advancements in nursing education and advocacy. His strategic vision has positioned RNS at the forefront of healthcare discussions, including leveraging AI to enhance educational programs and patient care initiatives. Kevin's leadership extends to developing accreditation programs, early adoption of technological advancements, and leading innovative educational initiatives, significantly enhancing professional development and patient care in nursing.
