

Biographical Statement

Evelyn P. Wempe, MBA, MSN, ARNP, ACNP-BC, AOCNP®, CRN

Mrs. Evelyn P. Wempe is an Advanced Registered Nurse Practitioner with twelve years of experience in oncology. She earned her Master's in Business Administration (MBA) with focus on Healthcare Management from Florida International University (FIU) in 2012 and her Masters of Science of Nursing (MSN) at Barry University in Miami, Florida in 2007. She has been a certified oncology nurse (OCN®) for the last ten years and has practiced in Interventional Radiology-Oncology in the academic setting for the last four years. In 2013 she earned her certification as an Advanced Oncology Certified Nurse Practitioner (AOCNP®). This past year she obtained her certification in Radiology nursing (CRN). Her interests include evolving the role of radiology nursing within Interventional Oncology and advancing the clinical management of cancer patients requiring interventional therapies. Her previous publications and presentations have focused on the clinical management of patients undergoing transarterial chemoembolization (TACE), percutaneous ablations and interventional oncology nursing. Currently, she is the Director for the Department of Interventional Radiology at the University of Miami/Sylvester Comprehensive Cancer Center where she also practices as a Nurse Practitioner. Current responsibilities as director involve strategic and leadership of the Interventional Radiology section including all clinical and non-clinical staff, to ensure safe, quality care and effectiveness of the department through best practices and evidence-based data while adhering to standards and regulations. Evelyn has previously served on the editorial board for the Journal of Radiology Nursing and currently serves on the Board of Directors as President-Elect for the Association for Radiologic & Imaging Nursing (ARIN).
